Christine's Comments:

Well, it's been another year of transition. If I've learned one thing, it is that change - especially in parishes - is very difficult for people. But all and all, it seems that God is always with us and is helping us navigate through the process of change. I, for one, am grateful. And I am grateful in particular for all of you who have patiently endured throughout our continued growing pains this year. I would like to thank all of you for your participation and your willingness to help out whenever called upon during the programme - whether it preparing snacks, assisting with the liturgy, photocopying, making phone calls, and taking photographs. I am also grateful to all the families who have helped in the evaluation process over the last 18 years. There has never been a year, where we haven't made a few improvements. I'm sure this year's group will have some more great ideas. As always, I consider is a privilege to be involved in such an important way in the lives of you and your children. I ask your forgiveness if I have failed you in any ways great or small - in particular my inability to return phone calls in a timely fashion - and wish you all blessings and peace as you journey onward in faith.
